

# Angola and Mozambique Midstream Gas Infrastructure Reverse Trade Mission

October 16, 2026 – October 24, 2026  
Houston, TX | Washington, DC

## Meet Gas Sector Decision-Makers from Angola and Mozambique

USTDA’s **Business Briefing** highlights **midstream gas infrastructure** opportunities in **Angola** and **Mozambique**. **High-level decision makers** will provide U.S. companies with **valuable market intelligence** about strategic priorities and upcoming procurement opportunities.

### BACKGROUND

**Angola and Mozambique** have experienced tremendous growth in the natural gas sector. Both countries currently have **billions of dollars** in commitments for **midstream gas infrastructure** projects like floating and onshore LNG facilities, gas capture and flaring reduction, offshore-to-onshore pipelines, treatment and processing plants, and storage facilities.

**Angola:** Angola’s National Agency for Petroleum, Gas and Biofuels (ANPG) announced \$60 billion in commitments for oil and gas projects in March 2025. To lower investment barriers, the ANPG has streamlined its licensing process and updated regulations to promote high returns for private investors.

**Mozambique:** The Export-Import Bank of the United States has committed to loaning \$4.7 billion of the approximately \$20 billion investment into the Area 1 Mozambique LNG project, while the U.S. Development Finance Corporation has extended \$1.5 billion in sovereign risk insurance to the Area 4 Rovuma LNG project, together representing the U.S. Government’s largest investment commitment on the continent.

**Significant opportunities exist for U.S. companies including:**

- LNG exporters
- Midstream natural gas engineering, procurement, and construction (EPC) firms
- Equipment suppliers
- Natural gas pipeline owner/operators; among others.

### ABOUT USTDA

The U.S. Trade and Development Agency helps companies create U.S. jobs through the export of U.S. goods and services for priority infrastructure projects in emerging economies. USTDA links U.S. businesses to export opportunities by funding projects preparation and partnership building activities that develop sustainable infrastructure and foster economic growth in partner countries.

Attendance at this event is limited to U.S. individuals, U.S. firms, or U.S. consultants as defined by USTDA’s Nationality Source and Origin Requirements available on USTDA’s website at <http://www.ustda.gov/>.

**REGISTER NOW**

### WHY YOU SHOULD ATTEND

- Learn about upcoming project opportunities and bidding processes
- Understand the landscape of the gas sector in Angola and Mozambique
- Meet one-on-one with key decision-makers
- Form new business partnerships

### BUSINESS OPPORTUNITIES

- Network with key decision makers
- Billions of dollars in procurement opportunities
- Learn about strategic priorities and sector plans
- Focus on midstream gas infrastructure
